About Us

We, at Aegis, introduced the concept of modular, functional furniture in India at a time when people even hadn't heard of it. Since then Aegis implements smart processes to deliver contemporary modular kitchens and home goods. The modular furniture products are manufactured to perfection, keeping India's usage patterns. In its long run, Aegis has tied up with the leading manufacturers of the world for raw materials, importing best quality material and tied-up with the leading manufactures in India. What started as a niche is now a state-of-the-art utility feature praised by one and all. Aegis provides internationally designed complete interior solutions including kitchen cabinets, wardrobes and complete apartment interiors specially designed to suit the requirement, taste and lifestyle.

PRODUCTS RANGE

DESIGNER MODULAR KITCHENS

Designer Modular Kitchen Cabinets

Kitchen designing has become simpler, easier, and faster provides a smarter way to design kitchens in India. A kitchen is the most integral part of a home. A neat, well designed and functional kitchen set-up can redefine the look of any home. Back in 1989, when the idea of modular kitchens was just budding, Aegis was one of the few to introduce it on a large scale for the mass consumer. Today, modular kitchens design can accommodate multiple variations in design and functionality.

With homes becoming more compact, and kitchen is generally larger and more space is provided for cooking, cleaning, food preparation and storage. The ever increasing space crunch has prompted Aegis to develop itself and match it through great design, neat and sharp looks with maximum storage while being convenient and budget friendly.

Aegis is able to keep modular kitchen prices budget-friendly to India's homeowners. With an extensive variety of customizable options in modern kitchen designs, all modular kitchens are transparently priced, keeping India's modern-day consumer in mind. With a wide range of boards, laminates, finishing materials, accessories, hardware, colors and sizes there is unlimited design potential. But among all these one thing is always constant – our commitment to superb quality in raw material and accessories. We ensure flawless finishing of the product using modern technique and innovation in design by using such superb quality that lasts longer with minimum maintenance.

Our team of experts is innovative towards the design and adaptive towards the efficiency quotient of each project, so each one is unique from another - A feature that only Aegis can Offer.

SHUTTERS, ACCESSORIES & HARDWARE

Shutters

We at Aegis offer a wide range of shutters. Now with the regular innovations and developments, various types of shutters are available. With effective research of all new developments considering durability, cost and aesthetic look we select the Shutter material as per the Indian conditions and customer requirements. We at Aegis offer economical but durable option of Pre-Laminated MDF to very High-Quality High Gloss Shutters.

Accessories

The accessories of a cabinet define its functionality and enhance its storage. If selected rightly it can help in optimum space management – which is an essential tool for interior designing in space crunched flats and apartments.

We carefully select the accessories as per the customer's purpose and choice of cabinets. Every single factor like size, design and pattern is developed as per the varied needs and budget available. Sourced from the trusted and reputed vendors who use high grade stainless steel, the accessories used by Aegis are known for their high durability, corrosion resistance, sturdy construction, compact design, negligible maintenance and flawless finish.

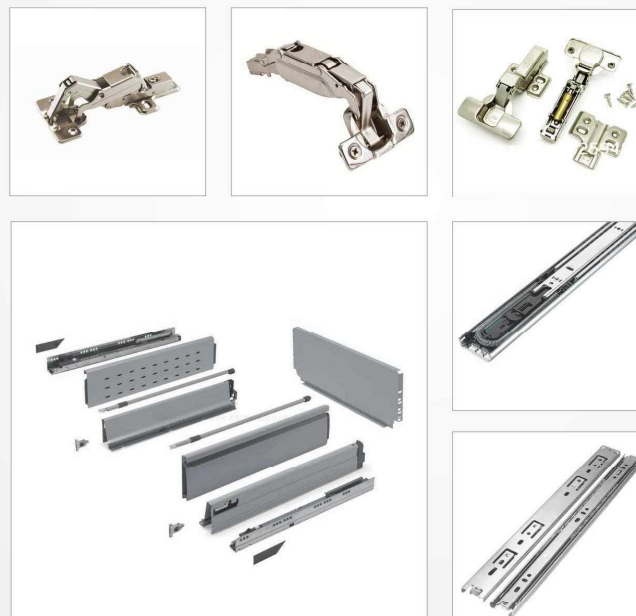

Hardware

We at Aegis are very cautious about the hardware and never compromise on it's quality because proper functionality and longevity of a cabinet depends on it. Along with the material the quality and the installation of the hardware used in manufacturing determines the potential of utility of any cabinet.

Sourced directly from leading manufacturers all over the world our hardware stands for its impeccable quality and cost effectiveness. We follow a no-compromise on quality policy by making frequent visits to the suppliers for inspection and while selecting them we look for their word class credentials.

WARDROBES & OTHER PRODUCTS

WARDROBES & OTHER PRODUCTS

Wardrobes & Other Products

In today's world where space is the need of hour, better storage options are the best solution. There is always a shortage of space for storing Clothes, woolies, accessories, valuables, bookcases, book shelves, file cabinets, hutch cabinets, chest of drawers and what not. Keeping this in mind we opt for smart storage solutions in every home.

The wardrobe interior designs is a growing demand of a spectrum of storage-friendly solutions, tailor-made for Modern India's homes. Wardrobe interiors are especially designed to include multiple storage options to organize all the items easily and efficiently.

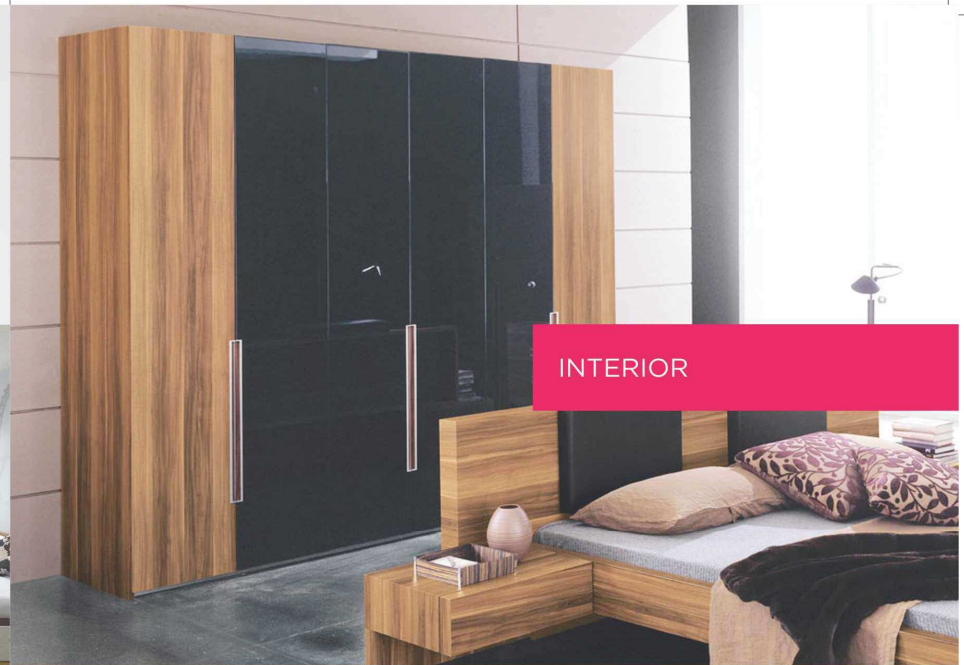

The design options for a wardrobe are practically endless with shutters, glass front, large sliding doors or a combination of some or all of them. When designing a completely customised wardrobe that fits in the space available, offering maximum storage while still being affordable is our primary aim. A wide range of wardrobe designs, differing in storage options, shutter styles and options, finishes, and color combinations.

Be it in-room wardrobes, storage cabinets or complete walk-in closets, for us at Aegis a wardrobe is not just a beautiful facade, but the right combination of function with style to create internal wardrobe configurations tailored to your needs and specifications. Wardrobe interiors are specifically designed to a customer's requirements and preferences.

INTERIOR

Interior
